

Road Construction Analysis

If anyone CAN - we CAN!

Metal packaging for road construction analysis

Metal packaging for removal and storage of samples in road construction analysis

The benefits of plug-lid cans, drill core pails and pails „made by Pirlo“ at a glance:

- Easy and residual emptying of liquid and solid samples
- High stability
- Finishing with individual printing is possible for larger quantities
- 100% recyclable

Plug-lid cans

- Excellent residual emptying
- Perfectly suitable for bitumen sampling

Pails with plug-lid for asphalt sampling

- Easy plug-lid with snap-in function
- Easy reclosable
- Can be labelled and inscribed for safe allocation during storage

Drill core pails

- Adapted to the drill core diameter 150 mm
- Nestable and stackable due to the conical shape and therefore perfect for space-saving storage / archiving

Our experts will be happy to help you with any questions you may have pertaining to road construction analysis. Special sizes are possible on request.

Standard sizes			
Nominal capacity in l	Dimension D1 / D2 / H in mm	Quantity per pallet	Minimum amount
Plug-lid cans			
0,9	99/144	616	616
Pails with plug-lid			
10,0	217/230/291	330	660
Drill core pails			
5,4	153/166/270	168	336
7,7	153/166/370	168	168
